

**Guide illustré du
FLECHEUR.**
*Un bon flécheur
=
une bonne marche.*

NE JAMAIS LAISSER PLUS DE 200 METRES ENTRE DEUX FLECHES

FLECHER LES ACCES A LA SALLE DE DEPART

Ce fléchage "aérien" peut se compléter par un balisage au sol à la chaux. Mais attention, **INTERDIT** de barbouiller les bordures de trottoir, les poteaux E.D.F. et P.T.T. ainsi que les arbres.

Interdit aussi les agrafes sur les arbres

Pour les rappels penser aux rubans
